DermaView II Island™

Transparent Film Dressing with Absorbent Pad

DermaView II Island™ is a semi-permeable transparent adhesive dressing with a non-adherent absorbent pad. Waterproof outer film is permeable to moisture vapor and oxygen, and helps keep contaminants out. Picture frame border allows for easy application. Conforms easily to awkward to dress wound sites.

Benefits:

- Self-adherent
- Waterproof - safe for showering
- Flexible and conformable
- Picture frame border for easy application
- Transparent outer layer allows for easy monitoring of periwound condition and exudate levels.
- Sterile
- Latex free

Indications:

May be used as a primary or secondary dressing. For the management of minimally exudating wounds, including:

- non-infected wounds
- partial thickness ulcers
- full-thickness ulcers
