

DermaView II™ Transparent Film Dressing

Non-absorbent, moisture vapor permeable dressing for non-infected wounds with minimal drainage. Maintains a moist wound environment and helps prevent bacterial contamination of wound. Picture frame border for easy application. Sterile.

Benefits:

- Transparent for evaluation of wound progress
- Picture-frame border for easy application.
- Conformable
- Latex Free

Indications:

May be used as a primary or secondary dressing. For the management of minimally exuding wounds, including:

- non-infected wounds
- partial thickness ulcers
- full-thickness ulcers
