

# FIBERHEAL<sup>®</sup>

## LIQUID FIBER

SUPPORTS BOWEL HEALTH,  
REGULARITY & DIGESTION

- Great taste and ready to serve
- Maintains regularity and reduces reliance on harsh laxatives
- Contains FOS\* to promote the growth of beneficial intestinal bacteria
- 1 fluid ounce provides 15g of fiber
- 2 fluid ounces provides 100% of the RDA recommended daily fiber allowance
- Easy to use - improves compliance
- Will not affect medication absorption
- Low glycemic index - does not increase blood sugars
- Thin liquid consistency
- All natural
- Sugar free
- Lactose and gluten free

## Maintaining Bowel Health Has Never Been Easier

FiberHeal is a concentrated liquid fiber medical food for the dietary management of bowel irregularity, constipation, and low fiber intake for those requiring supplemental fiber. FiberHeal combines the laxative and stool-softening effects of fiber and FOS with all-natural sorbitol, which aids in gentle elimination without diarrhea. FiberHeal helps maintain regularity and digestive health.

All Natural Dietary Fiber & Sorbitol act as natural laxatives and stool softeners.

Prebiotic FOS (Fructooligosaccharide) stimulates the growth of beneficial bacteria naturally found in the digestive system, helping to maintain the colon's integrity and water balance. Helps promote bowel regularity and prevent diarrhea.

**Dosage:** 1-2 Tablespoons (15-30 mL) 1-3 times per day.

**Indications:** Use to correct inadequate dietary fiber intake, chronic constipation, bowel irregularity, irritable bowel syndrome (IBS), and diverticulitis. Use under medical supervision.

Product	Size	Reorder #	Units	HCPCS
FiberHeal	30 oz	PR07000	6/Case	B4104
FiberHeal	1 oz	PR07000U	96/Case	B4104

DermaRite<sup>®</sup>

\* FOS (fructooligosaccharides) is a non digestible carbohydrate that stimulates the growth and activity of beneficial bacteria in the colon and maintains colon integrity. FOS is fermented by colon bacteria to short chain fatty acids (SCFA). This makes the colon acidic and limits the growth of C. difficile thus preventing diarrhea. In addition, FOS stimulates water and electrolyte uptake protecting against diarrhea.

Do not give FiberHeal to those on residue restricted diets, those who suffer from Megacolon, suspected fecal impaction, or those with sensitivities to any of the ingredients. FiberHeal is to be used as a medical food and not as a meal replacement. Check with a physician prior to starting new therapy. These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.
