Renew PeriProtect™

Skin Protectant/Moisture Barrier Cream with Zinc Oxide and Dimethicone

Renew PeriProtect is a midlevel barrier cream that combines the moisture barrier benefits of zinc oxide and dimethicone for long-lasting, soothing skin protection. Designed to protect skin that is at risk or damaged from the effects of wetness, urine or stool exposure. Enriched with aloe, lanolin, and vitamins A, D, and E to hydrate and protect delicate skin.

Features:

- Zinc oxide (12%) and dimethicone (1%) lock in natural skin hydration and repel wetness and irritants present in urine or feces.
- Long-lasting protection
- Smooth, soothing, easy-to-apply texture
- Rubs in clear
- Easy to remove
- Fresh powder scent

Uses:

- Helps treat and prevent diaper rash.
- Protects minor skin irritation associated with diaper rash and helps seal out wetness.
