

DermaSyn/Ag™ Silver Antimicrobial Wound Gel

DermaSyn/Ag™ combines the antimicrobial and wound healing benefits of ionic silver, glycerin, and aloe vera with a hydrogel, providing a moist wound environment for maximum healing on partial and full thickness wounds. Protects against internal and external contamination. Needs a secondary dressing.

Benefits:

- Facilitates moist wound healing
- Supports autolytic debridement
- Antimicrobial silver helps manage wound bioburden
- Latex free

Indications:

A primary dressing that may be used for the management of acute or chronic partial and full thickness wounds/ulcers that are dry or have minimal exudate, including:

- Pressure ulcers
- Venous ulcers
- Surgical incisions
- Diabetic ulcers
- Tissue trauma
- Thermal burns
