

## StingFree™ Alcohol-Free Liquid Skin Prep & Shield

**New formulation** - now dries faster and with improved protection! StingFree offers no-sting, alcohol-free protection for up to 72 hours. Forms a quick-drying transparent protective film between skin and contaminants. Aids in the prevention of skin maceration.

### Benefits:

- Provides up to 72-hours of protection
- Will not clog incontinence briefs or absorbent pads

### Benefits specific to the wand:

- Convenient; precise application
- Easy-to-use, wand prevents contact with gloved hand
- May be used with silicone adhesive dressings

### Indications:

Use to:

- Protect periwound skin.
- Protect against excessive moisture due to wound exudate, tube drainage or incontinence.
- Prevent skin stripping from adhesives.
- Decrease friction damage over bony prominences.
- Form an extra barrier over intact skin in fragile areas as seen with Stage 1 pressure ulcers, suspected Deep Tissue Injury and blood blisters.
