

DermaLevin™ Waterproof Adhesive Foam Dressing

DermaLevin™ is a moderately absorbent waterproof foam island dressing that protects and cushions the wound & maintains a moist wound environment. Will not adhere to wound bed. Waterproof backing. Conforms easily to awkward-to-dress areas.

Benefits:

- Supports moist wound healing and autolytic debridement
- Excellent exudate management to minimize maceration
- Supports normalization of wound bed temperature
- Conformable for hard to dress areas
- Latex free

Indications:

May be used for the management of acute or chronic partial and full thickness wounds/ulcers with moderate exudate.
